

in favor of it. So I support Senator Simpson's motion.

SPEAKER: Senator Cavanaugh.

SENATOR CAVANAUGH: Mr. President and members of the body, I'd also rise to support Senator Simpson's motion. I served on the Labor Committee, we spent an entire day hearing the bill, most of which was, most of the testimony which was confusing and irrelevant to the real issue. The issue here is a very simple one, everyone who is employed in a, by a company that's represented by a union, which is exclusive bargaining agent, receives the benefit from the services provided by the union, all the agency shop provides is that everyone will contribute to the union for the benefit that they derive from the union, and it's a very simple issue and it's distorted by a lot of misfact and misinformation, and I frankly don't understand the great reluctance of industry to provide a system of basic equity whereby everybody pays for what they receive, so I'd support Senator Simpson's motion.

SPEAKER: The motion is to place LB 96 on general file, notwithstanding the action of the committee, this is an agency shop bill. The Chair recognizes Senator Kelly.

SENATOR KELLY: Mr. President and members of the body, the labor committee did a thorough study and held, in holding the hearing, the held, they heard all the testimony from those in favor of LB 96 and all of those opposed to LB 96. In the considered judgement of the committee this was a simple bill, it's strictly asking those people who do not want to contribute to labor unions, it forces them to contribute without their consent. We feel that this not in line with the constitution of the state of Nebraska, in the right to work law, we feel that it does away with individual liberty, in choosing what you want to do, and I believe that would be the philosophy that the labor committee did away with this simple bill.

SPEAKER: Senator Keyes.

SENATOR KEYES: Well Mr. President, until we bring this bill on the floor of the legislature, and let every Senator here understand what it does, we haven't done justice to the people of the state of Nebraska. I vote usually with the labor organization it's no secret to anybody here, although yesterday on Senator Chambers bill I'm going to oppose it because I do not feel it was the right thing to put on the people. So today I would like to see you bring this bill out and thoroughly discuss it on the floor of the legislature and I'm sure the Senator Kelly's statement that he made in his mind is right. But I would like to be able to talk to you Senators here who have not heard both sides of the issue. There are two sides to the issue and I think the only way to get it brought out to the people, and to the Senators on this legislative floor is to bring it up here now and notwithstanding what the committee did, because the committee is very honorable, they're good, but they are only seven of them, I believe in that committee, and I'd like to see 49 men have a right to express their opinion on it.

SPEAKER: The Chair recognizes Senator Kelly.

SENATOR KELLY: Certainly this legislature does not want to hear every requisition for an idea to come before the people of Nebraska. We instituted the committee system for just that purpose, to take care in detail and study by honorable colleagues of what the propositions are and when that committee decides in their own mind, after the testimony, that this should be the end of that proposition, for this session, certainly the members of this body should respect the work done by that committee. If
